Education

IT Innovation & Design   September 2017 – Present
Conestoga College

Pursuing Ontario College Advanced Diploma in ITID, 83/101 credits completed – graduating this April

Skills

Languages
    C#, Java, HTML, CSS, JavaScript, SQL

Technologies & Frameworks
    Git, Node.js, .NET Core, Entity Framework, PostgreSQL and MySQL, Azure, xUnit, TDD

Projects

Rate My Learning   *C#, .NET Core, Entity Framework Core, PostgreSQL*

- Final semester capstone project with numerous reputable local tech companies participating
- Led a group of three and worked with a faculty advisor on a weekly basis to create a rating system for schools where users can submit feedback about their programs and courses
- Designated as the main developer in charge of researching, designing and implementing the back end with .NET Core, Entity Framework and PostgreSQL
- Successfully organized weekly meetings, status reports and managed work flow within the group

Blog It   *JavaScript, Node.js, Express, PostgreSQL, Azure*

- Used Node.js alongside jQuery to create a blogging site where users can create and modify their personal blogs
- Maintained and hosted an active database on the cloud with Azure and PostgreSQL
- Made with a mobile first approach, had a responsive design and could be deployed to Android devices

Space Flight   *C#, Unity*
- Used Unity engine to create a 2D vertical scrolling, space themed game
- Utilized the C# language to successfully implement classes and methods in order to allow players the ability to shoot, move and keep track of their score

Personal Growth   *React, TypeScript, SCSS*
- Actively participating in Udemy classes and other learning tools
- Currently learning React and TypeScript

Work Experience

Oticon   September 2016 – August 2019

Shipping & Receiving Associate

Recognized by managers as one of their top performing and most desired summer students. Superb productivity time which resulted in consistently shipping out more than 1,000 BTE orders daily. Asked by various managers to assist in their departments and maintained a positive relation with management.
